Project: PetPal — Appointment Booking and Records App for a Veterinary Clinic Chain
Case Study: No. 64
Subject: Software Engineering & Project Management

High-Fidelity Prototype Screens

The high-fidelity UI representations below capture the complete user journey for pet owners booking appointments across the 5 Bengaluru clinics and for clinic receptionists/doctors managing daily operational queues.

Screen 01: Pet Owner Login

Secure customer authentication with password hashing.

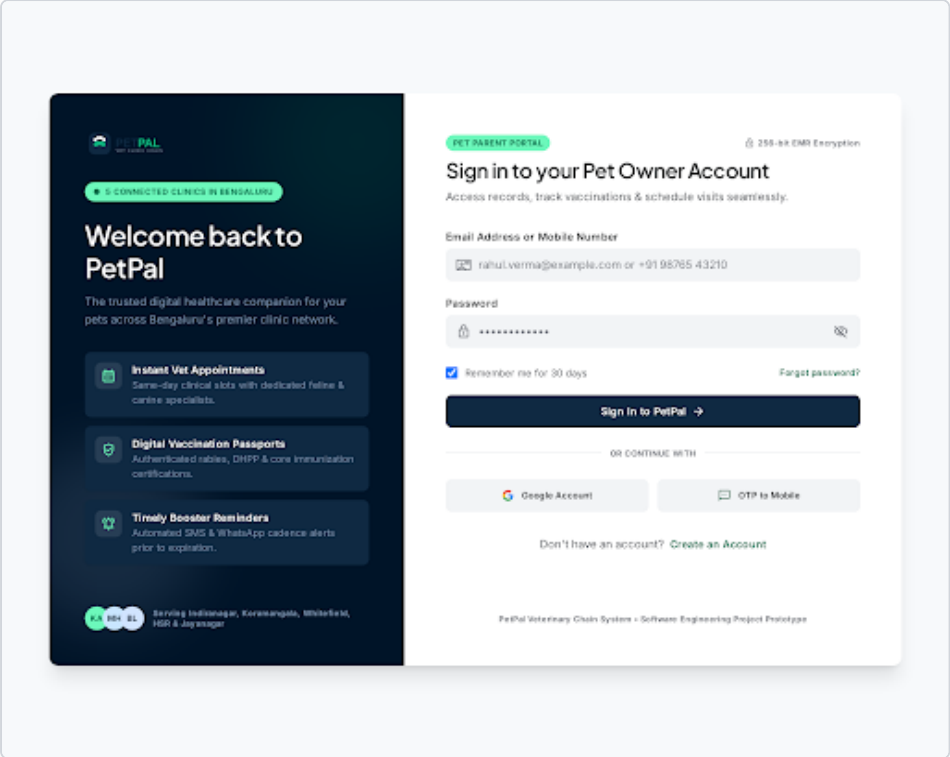

Figure: Screen 01: Pet Owner Login

Screen 02: Pet Owner Registration

User registration capturing contact details for automated SMS alerts.

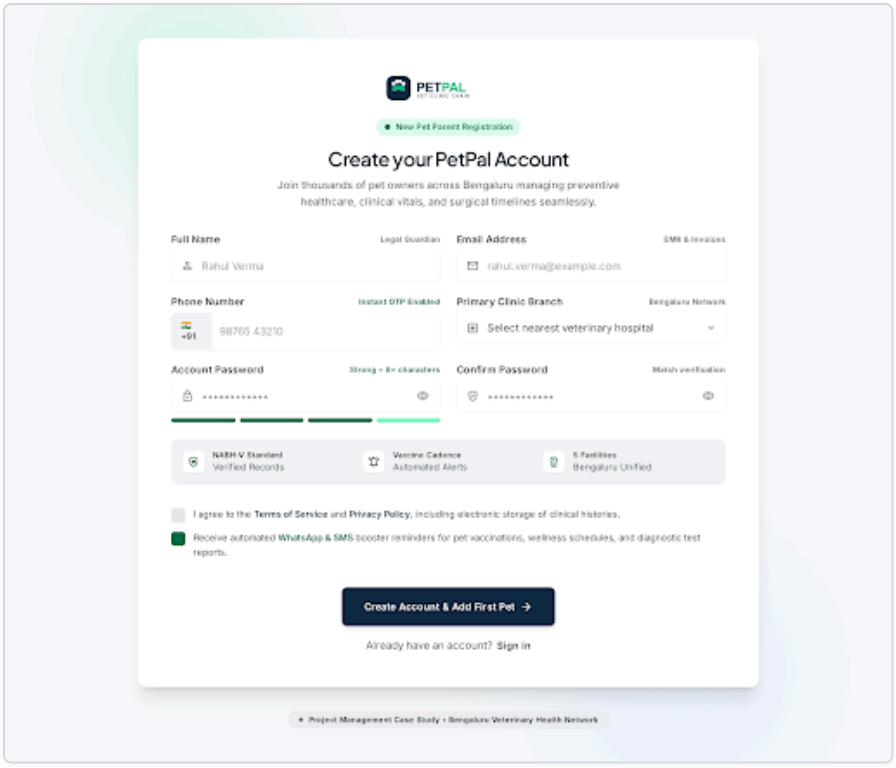

Figure: Screen 02: Pet Owner Registration

Screen 03: Pet Owner Dashboard

Central overview showing active pet, next visit, and booster due alerts.

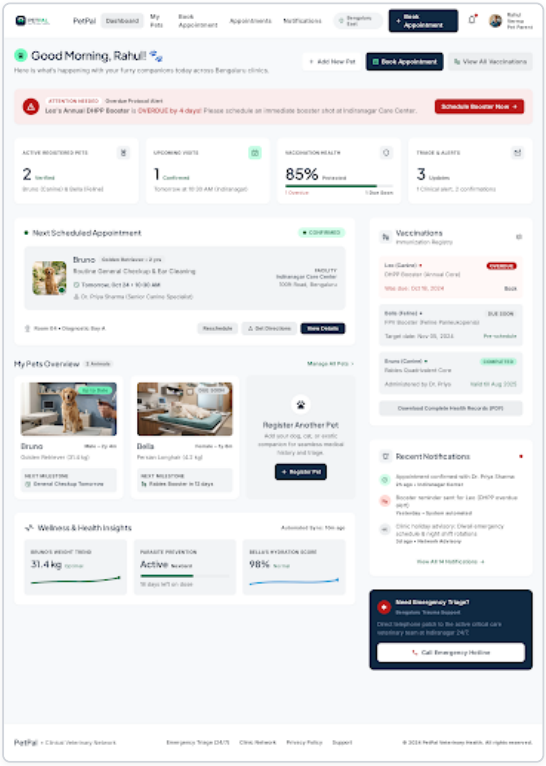

Figure: Screen 03: Pet Owner Dashboard

Screen 04: My Pets Overview

Household pet registry with quick health cards.

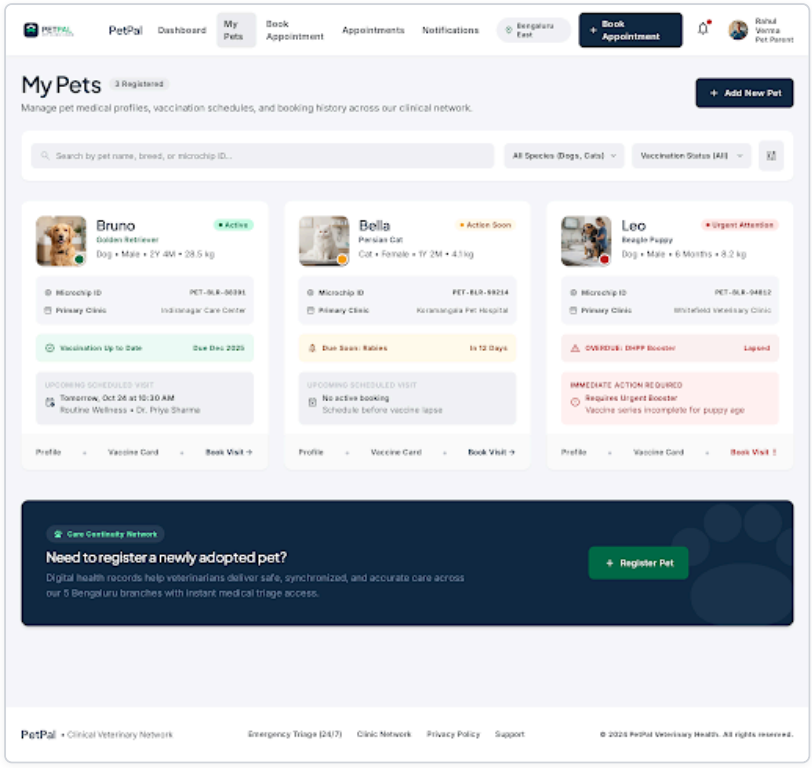

Figure: Screen 04: My Pets Overview

Screen 05: Add New Pet

Pet demographic registration form with microchip tagging.

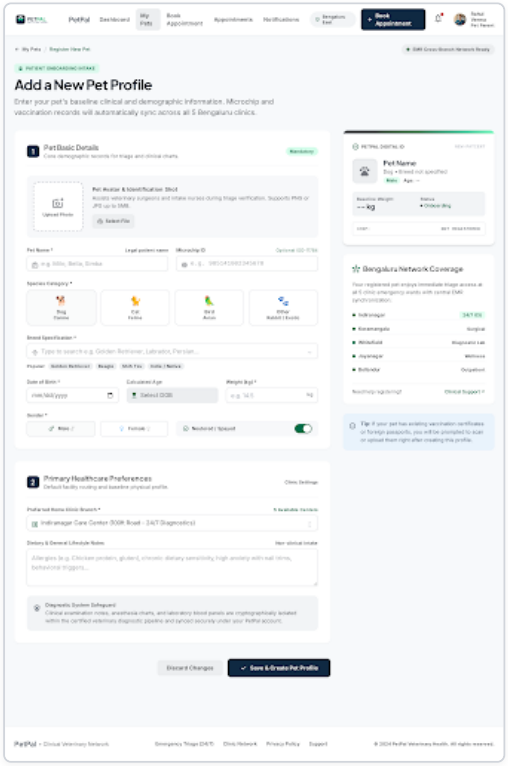

Figure: Screen 05: Add New Pet

Screen 06: Pet Detailed Profile

Pet biological statistics, breed details, and immunization history links.

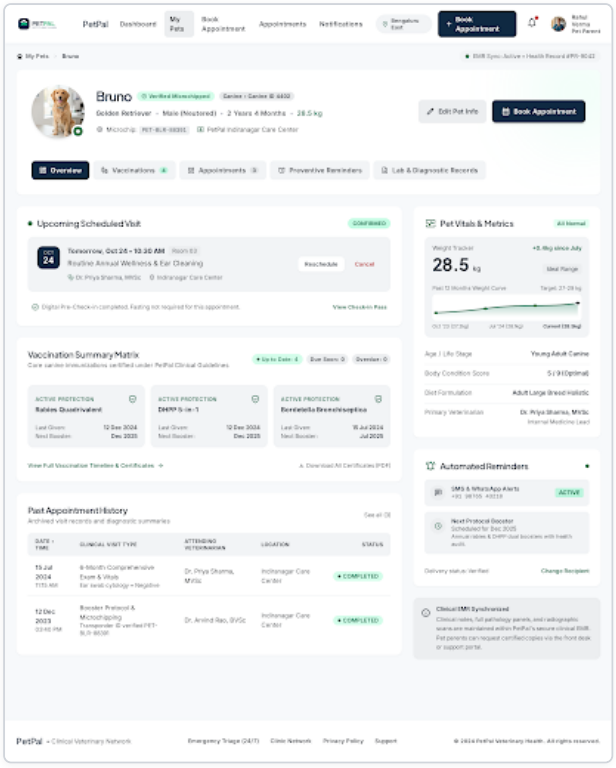

Figure: Screen 06: Pet Detailed Profile

Screen 07: Vaccination History

Immunization logs with computed status badges (Completed, Due Soon, Overdue).

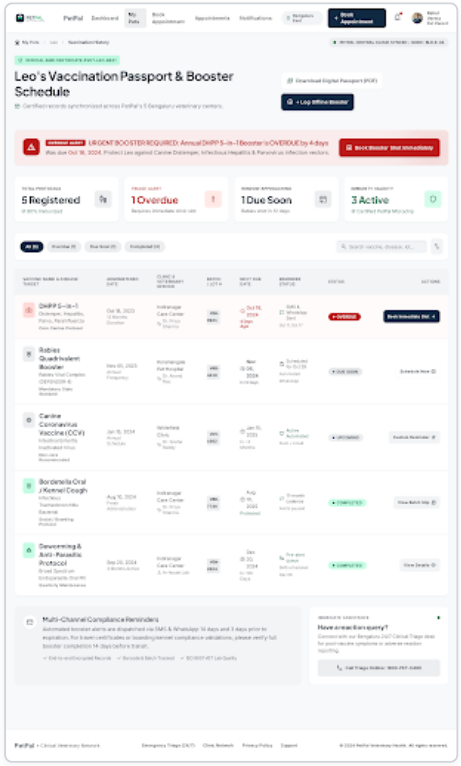

Figure: Screen 07: Vaccination History

Screen 08: Book Appointment – Step 1

Booking wizard step 1: Select household pet.

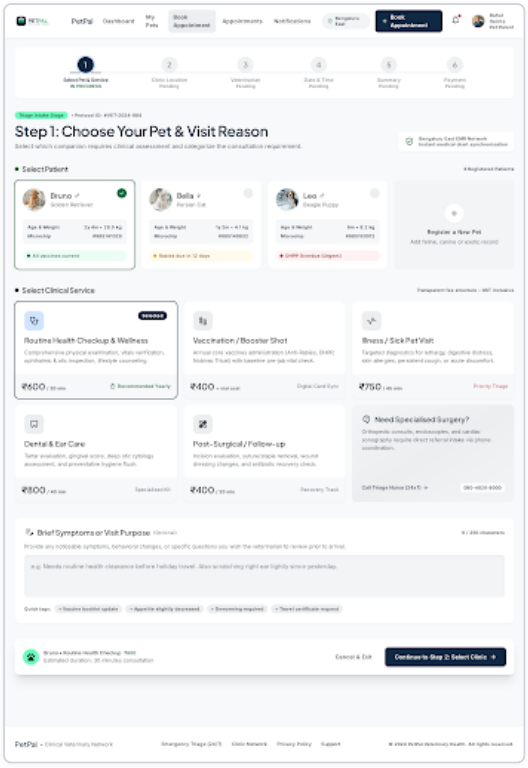

Figure: Screen 08: Book Appointment – Step 1

Screen 09: Clinic Branch Selection

Directory of the 5 Bengaluru clinic branches with operating hours.

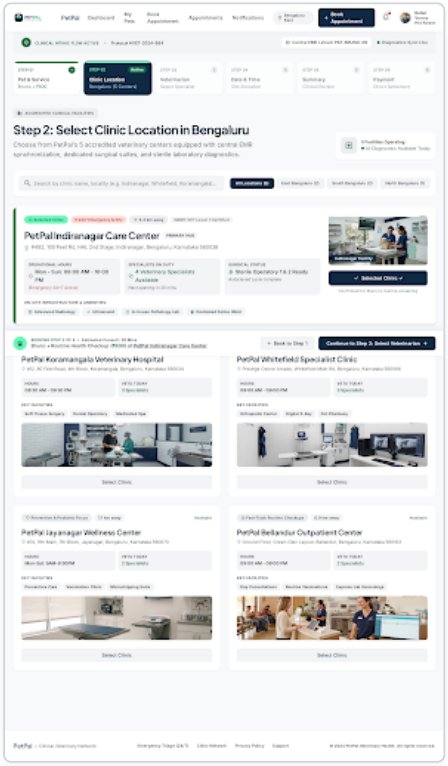

Figure: Screen 09: Clinic Branch Selection

Screen 10: Veterinarian Selection

Certified veterinary doctor profiles, specialties, and fees.

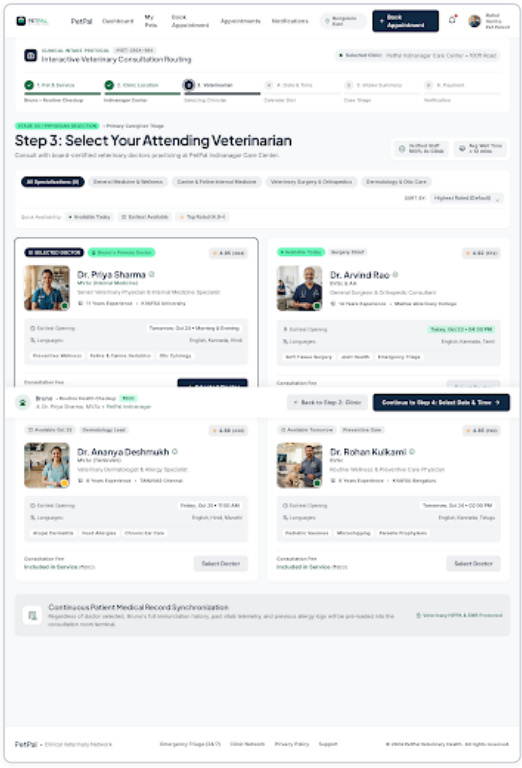

Figure: Screen 10: Veterinarian Selection

Screen 11: Date & Time Slot Selection

Real-time 30-minute available appointment slot matrix.

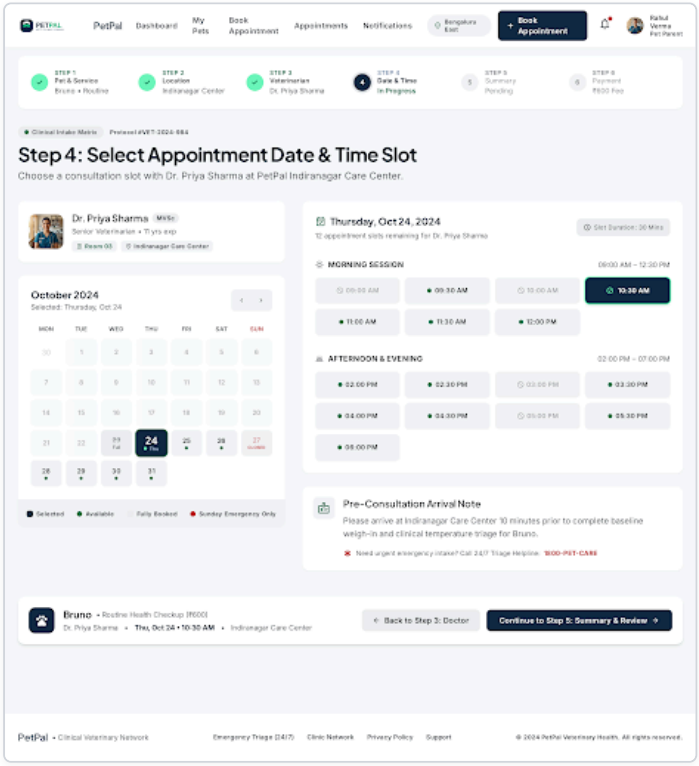

Figure: Screen 11: Date & Time Slot Selection

Screen 12: Appointment Summary

Pre-checkout review of appointment details and consultation fee.

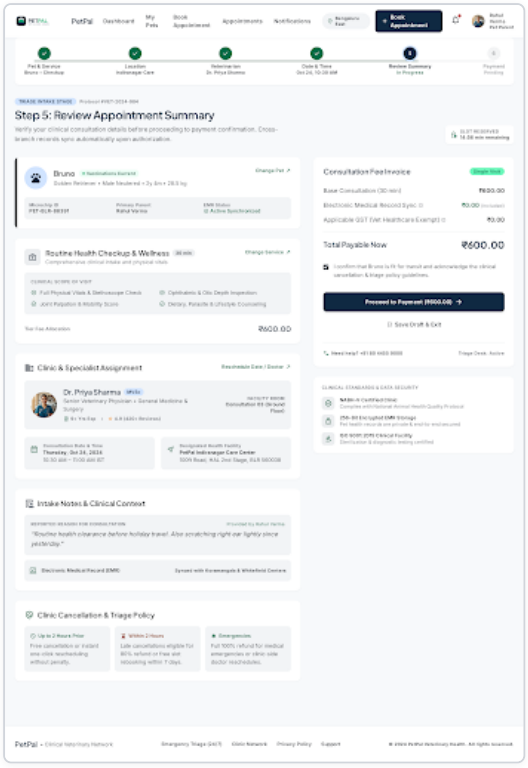

Figure: Screen 12: Appointment Summary

Screen 13: Online Payment Processing

Secure payment gateway modal with 10-minute slot hold timer.

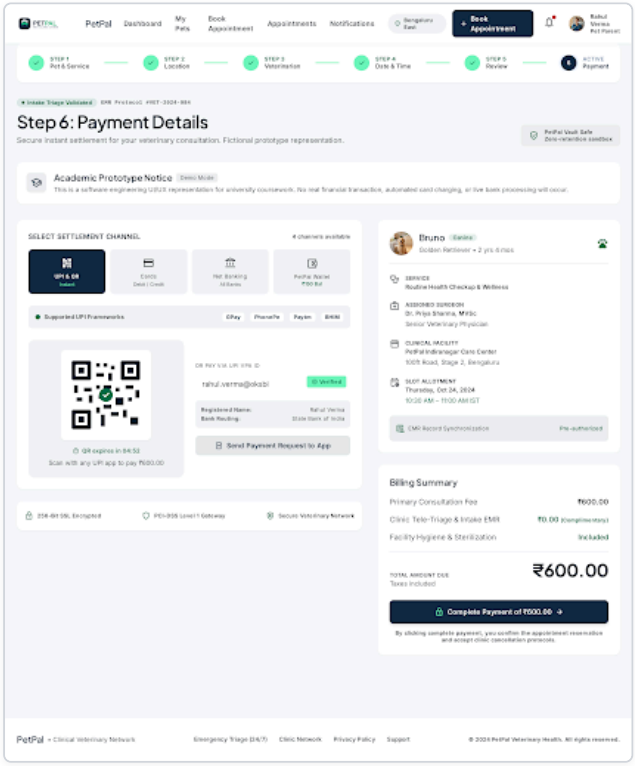

Figure: Screen 13: Online Payment Processing

Screen 14: Appointment Confirmation

Instant booking confirmation with calendar sync and digital receipt.

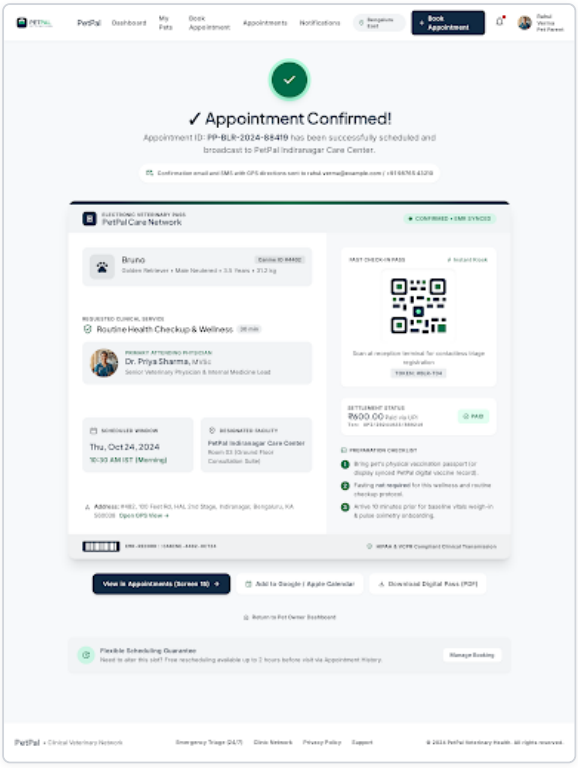

Figure: Screen 14: Appointment Confirmation

Screen 15: Appointment History

Manage bookings with self-service cancellation (≥ 4h rule).

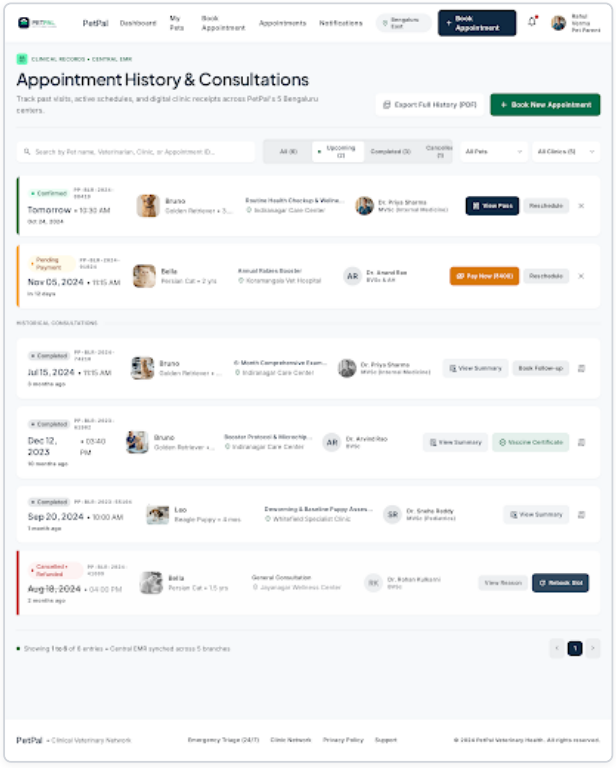

Figure: Screen 15: Appointment History

Screen 16: Notifications Inbox

Multi-channel alerts for upcoming visits and booster vaccination due dates.

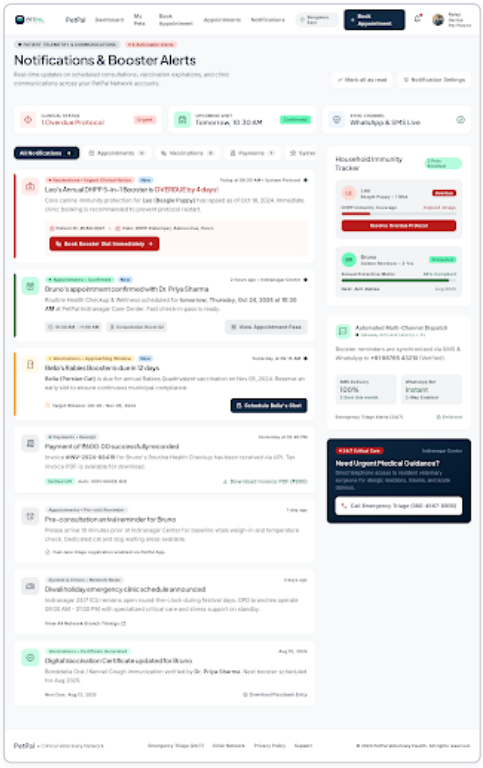

Figure: Screen 16: Notifications Inbox

Screen 17: Profile & DPDP Settings

User preferences, SMS opt-ins, and data privacy settings.

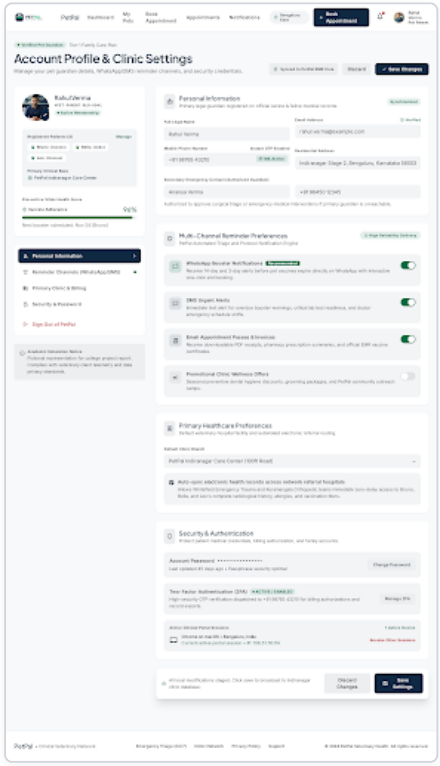

Figure: Screen 17: Profile & DPDP Settings

Screen 18: Clinic Staff Login

Branch-scoped secure staff authentication.

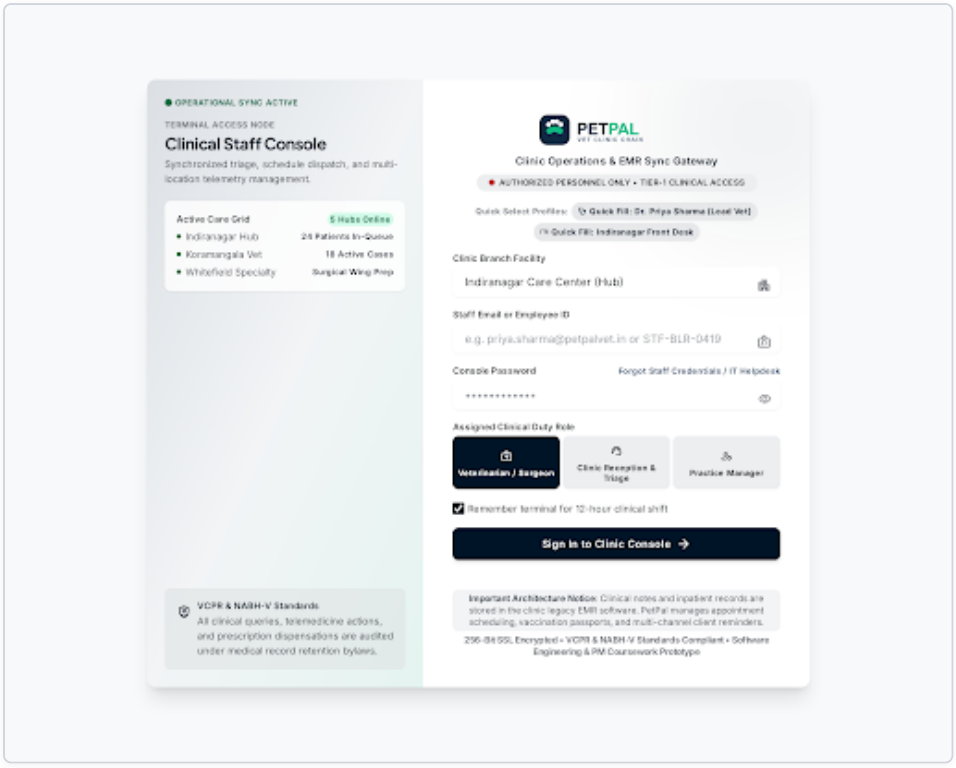

Figure: Screen 18: Clinic Staff Login

Screen 19: Clinic Staff Dashboard

Operational hub showing live queue, arrivals, and doctor room statuses.

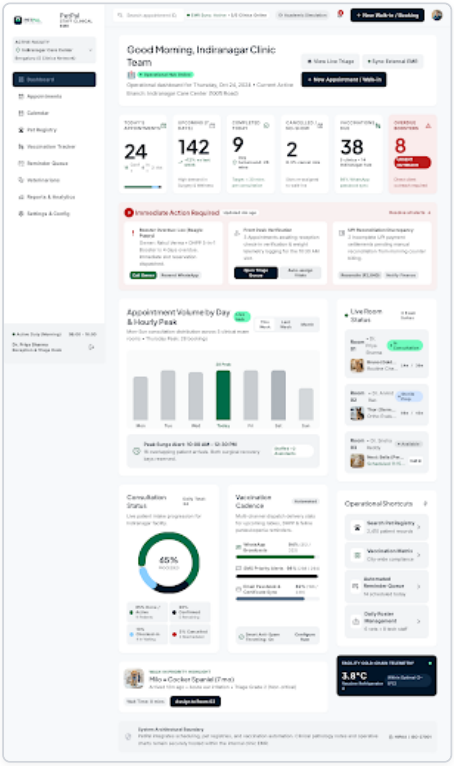

Figure: Screen 19: Clinic Staff Dashboard

Screen 20: Today's Appointments Queue

Receptionist live patient queue with one-click check-in actions.

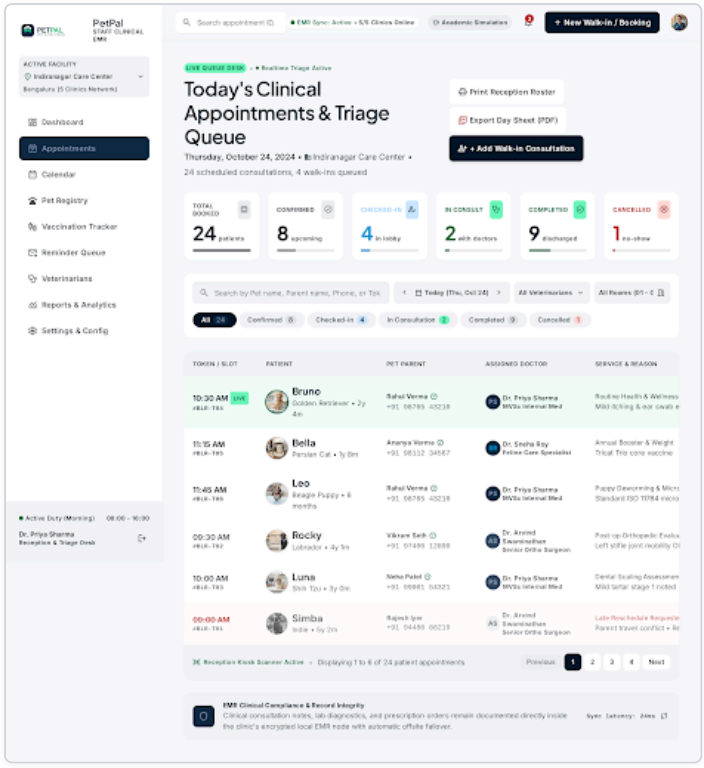

Figure: Screen 20: Today's Appointments Queue

Screen 21: Appointment Management

Weekly clinic schedule calendar with emergency buffer holds.

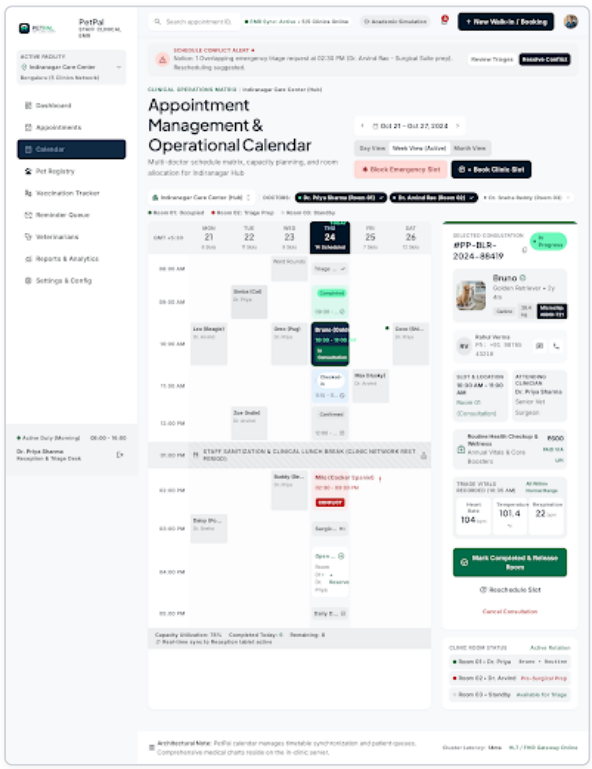

Figure: Screen 21: Appointment Management

Screen 22: Universal Pet Search

Cross-branch pet search by Microchip ID, phone, or pet name.
